

VALURA INDIA

GLOBAL INVESTING. REIMAGINED
FOR INDIA.

Powered by GIFT City • AI-Native Platform • SEBI & IFSCA Regulated

The Problem

Every year, millions of Indians — residents, NRIs, and foreign nationals — want to grow their wealth globally. The ambition is clear. But the path? Broken.

 **Global Access Gap**

 **Compliance Nightmare**

 **Tax Confusion**

 **HNI-Only Wall**

 **Money Leaving India**

The result? India's \$4.5 trillion household savings pool remains massively under-diversified — trapped in FDs and domestic markets, unable to tap the world's best investment opportunities.

Introducing **Valura India**

We've eliminated every friction point between Indian investors and the world's best opportunities — compliance, custody, tax, and access — all in one digital-first platform, licensed and regulated under India's GIFT City framework.

- ✓ **Regulatory Shield**
- ✓ **AI-Native Stack**
- ✓ **From \$5,000**
- ✓ **No Estate Tax**
- ✓ **No Foreign Hassle**

**Valura India is an AI-native,

investment platform —
democratising access to
world-class assets for
Indian residents, NRIs,
and foreign nationals.**
